

Dear International Partner,

Greetings from Ritsumeikan University.

We are pleased to inform you that the Ritsumeikan 2015 Summer & 2016 Winter Japanese Program brochure is now available on our website:

[http://www.ritsumei.ac.jp/eng/html/admissions/program\\_jp/rsjp-rwjp/](http://www.ritsumei.ac.jp/eng/html/admissions/program_jp/rsjp-rwjp/)

This program is a five-week intensive Japanese course that provides a comprehensive introduction to the Japanese language and culture. In the next year, we will be holding two summer programs in 2015 and one winter program in 2016.

In addition, it gives us pleasure to announce the College of Image Arts and Sciences Summer Program entitled “The Present Future Prospects of Japanese Pop Culture”, which will commence in July 2015. This program focuses on Japanese pop culture such as games, manga and anime. Japanese proficiency is not required for this program. Students will have some Japanese classes in the first week, but all lectures in the second week will be conducted in English. This program will provide a great opportunity for students interested in exploring the world of Japanese pop culture.

Application materials as well as information and updates about these programs can be found at the following website:
